

## PAINT MEMORANDUM

To: Health Commissioners, Directors of Environmental Health, Pool Contractors and Designers, and other interested parties.

From: W. Gene Phillips, MBA, RS, Chief, Bureau of Environmental Health

Date: January 2, 2002 **(revised April 20, 2006)**

Re: Acceptable. Pool/Spa Paints and Coating Colors

In accordance with the Ohio Administrative Code (OAC) rules 3701-31-04 (C) (10) and 3701-31-041 (E) (1), "the interior surfaces of pools and spas shall be painted white, unless the color is submitted to and approved by the director."

This requirement became effective on January 1, 1999 and applies to new pools and spas as well as existing pools/spas that will be repainted. The colors listed below were submitted to the Ohio Department of Health (ODH) and have been approved. Any of the colors listed below may be mixed with white. This list does not apply to primer colors. Other colors may be approved separately on a case-by-case basis. This list also applies to other colored finishes such as tile and pool/spa liners. Any logos or other unique artwork proposed for the pool/spa bottom must be submitted to and approved by ODH. Submittals may be sent to ODH, Bureau of Environmental Health, Swimming Pool/Spa Program, 246 N. High Street, Columbus, OH 43215. Black racing stripes and target marks are exempted from this requirement provided that they meet the standards of the appropriate governing body.

This list may be periodically revised to add or delete colors. If you have any questions, please call the Public Swimming Pool Program at 614-466-1390.

### Acceptable Pool/Spa Paints and Coating Colors

Manufacturer	Address/contact information		
<b>Benjamin Moore Paints</b>

White Pearl	Soft White		

**Note:**

1. Natural and unfinished **Stainless Steel** or **Aluminum** used for the shell of a public swimming pool, spa or special use pool or with a clear coat finish are acceptable finishes.
2. Typically logos on pool floors are darker than the surrounding finish and are evaluated on a case-by-case basis with regard to bather safety and the ability to readily identify objects lying on the pool floor. Logos that have been accepted are those including lettering or figures not wider than a typical lane marker or those using tile with "white" grout to provide enough contrast to readily identify objects lying on the pool floor.

3. This is not a comprehensive list. Please contact the Ohio Department of Health if you have questions about the acceptance of a particular finish or wish to submit one for approval. To submit a finish for evaluation please provide the manufacturer's name and complete address (with phone number or E-mail address), a sample of the finish and the product code number from the manufacturer or, with topical coatings, from the container label.
